DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor suggest, in the claimed combination, an electrostatic micro-switch that connects two electrically conductive paths placed on a support wherein control electrodes are laid out on the distortion means and the support in two sets of electrodes, a first set of electrodes intended to generate a first electrostatic force to initiate the distorting of the distortion means until the first electrode set creates a mechanical contact with the distortion means, the ends of the conductor paths being sufficiently distanced from each other so that the contact stud does not electrically connect the ends of the conductor paths, and a second set of electrodes intended to generate a second electrostatic force to continue the distorting of the distortion means so that the contact stud electrically connects the ends of the two conductor paths.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the Abstract received on 05/26/2005, line 22, delete "Figure 1".
